

Air Conditioning Engineer

Job Title:	Air Conditioning Engineer
Department:	Capita
Reporting to:	Technical Services Manager
Responsible for (staff):	N/a
Location:	Field based – North East
General Purpose of Role:	As a field-based Air Conditioning Engineer you will be working on a variety of different HVAC systems on large commercial buildings. The role will include service, maintenance, breakdowns and fault finding on the Air Conditioning systems

ACCOUNTABILITIES

- Service & maintenance of HVAC/ Commercial Chillers& Air Conditioning equipment
- You'll be splitting your time on reactive maintenance and PPMs, visiting a variety of commercial sites which are largely in the retail sector, with a few commercial office blocks too.
- Dedicated to all aspects of service and reactive maintenance on a wide range of appliances including air conditioning such as AHU's, VRV's VRF's, splits etc
- Be available when on call to ensure effective response & resolution to satisfy customer needs and escalating where appropriate
- Ensure compliance with all health and safety requirements and adhere to best working practices
- Undertake relevant HR processes including, notification of absence, holidays, training needs and completion of timesheets
- You are what the client sees first; make a good impression (ensure you comply with dress code and maintain your vehicle in good condition)
- Achievement of tasks within SLA times and work orders opened and closed in real time
- Timely completion of reactive and planned works carried out to agreed standards, achievement of first fix and equipment uptime
- To work proactively to manage task volumes in conjunction with the Planning and Dispatch team
- Ensure appropriate audits and checks (seasonal) are carried out in line with standards provided
- To order and fit parts or components as prescribed by company procedures
- To notify the company P&D team of procedural task condition on completion of works
- Able to effectively diagnose and identify faults and failures with equipment and systems and provide effective solutions and escalate where necessary
- To actively support colleagues building a teamwork approach e.g. – supporting with training and up skilling of apprentices and communicating regularly and assisting when required
- You will be covering a portfolio of sites across the South West area.
- Working hours will be Monday to Friday, 8am to 5pm and you will be required to be on call approx. 1 in 4
