Based in our Redditch office as part of the small dynamic team you will be developing, delivering, and maintaining a number of bespoke solutions which enable us to support a range of clients.

Applications Developer - C#, SQL, Mobile, .NET

ArcusFM are looking for a Software Developer with 2+ years of experience to join our current team. Based in our Redditch office as part of the small dynamic team you will be developing, delivering, and maintaining a number of bespoke solutions which enable us to support a range of clients. Working with the business across all disciplines on everything from app development to cloud-based systems, our portfolio includes portals, reporting systems, websites, webservices, platform integration and data exchange.

The successful candidate will have the opportunity to become involved in the full lifecycle of projects with varying sizes and scope. As part of the close-knit team you will have an in-depth appreciation of the full software application development cycle and be able to apply this to a range of projects. Internal research and development projects are also carried out so that you always stay at the forefront of changes in the industry.

Office based in Redditch but with some home working potential
